- Improvement of the international security to prevent the emergence of threats through diplomatic and other activities

- Development of “Multi-functional, Flexible and Effective Defense Force”
(2) Cooperation with the United States

  - Significant reduction of personnel and equipment
  - Maintenance of the most fundamental capabilities of the defense force

- Proactive Efforts to Improve International Security Environment

  - Proactive Participation in the International Peace Cooperation Activities
  → Development of education and training systems, responsive force posture, transport and other required capabilities

  - Promotion of Security Dialogues and Defense Exchanges/Cooperation in arms control and disarmament
