**IV Other Topics**

# I

## **Security Environment Surrounding Japan**

- 1 Features of Current Security Environment**
- 2 Sky and Space Surrounding Japan**
- 3 Security Environment Surrounding Japan**

# 1 Features of Current Security Environment

- Unilateral changes to the status quo by force or such attempts are serious challenges to the free and open **international order based on the rule of law**, and the international community has entered **the greatest postwar trial yet, and has entered a new era of crisis**.
- Rapid development in science and technology are fundamentally changing the paradigm of security and the development of cutting-edge technology that becomes **“a game changer”** has brought about **fundamental changes to the way military is organized as well as the way warfare is prosecuted**.
- There are also global security issues such as the intensification of risks in the cyber domain, the development of information warfare including dissemination of disinformation, and climate change.
- **The target of security has expanded to include the economic field** due to the vulnerability of supply chains and the growing threat to critical infrastructures.

# 1 Features of Current Security Environment

## Demonstration of force by China and Russia

Joint Navigation

Joint Flight

## Russia continuing active actions

Deployed new equipment also in the Far East region

Stereogushchiy II-class frigates  
Assigned to the Pacific Fleet in 2020

Ground-to-ship missile system  
Newly deployed to Paramushir Island of Chishima Islands in 2022

## North Korea's Nuclear and Missile Development

- First nuclear test in 2006 and a total of six nuclear tests thereafter
- Enhancement of missile technologies, including missiles with increasingly longer ranges and ones that fly on irregular trajectories

[Korea News Service/Jiji]

[AFP/Jiji]

- Declared the completion of the nuclear force in 2017
- Continued systematic development of various weapons, including nuclear weapons

## China's broad and rapid change of military forces

China's attempt for unilateral changes to the status quo by force in the East China Sea / Rapid expansion and increase of military activities

Issues concerning Taiwan

Issues concerning the South China Sea

In the vicinity of Japan, moves towards strengthening military forces and increasing military activities are notable.

## "Indo-Pacific is a region with many security challenges."

- There are several nations and regions in this region with large military forces, including nuclear weapons, do not share universal values, nor the political and economic systems based on such universal values.
- There exists a complex intertwining of diplomatic and other relations based on historical backgrounds.
- Diverse threats and challenges of various types and intensities exist in this region, such as unilateral changes to the status quo by force and such attempts in the East and South China Seas and other areas, piracy, terrorism, the proliferation of weapons of mass destruction, and natural disasters.

# 1 Features of Current Security Environment

## Russia's aggression against Ukraine

- On 24 FEB 2022, Russia began the full aggression against Ukraine.
- **Serious violation of international law** and the UN Charter, which prohibit the use of force
- Unilateral change of the status quo by force **is an act that shakes the very foundation of the international order, including Asia.**
- If such Russia's aggression is tolerated, it could send a message with the wrong implication that unilateral changes to the status quo by force are acceptable in other regions, including Asia.

Source: Government of Ukraine Facebook

## Situation in the Gaza Strip

- Hamas and other Palestinian militants launched thousands of rockets from the Gaza Strip to Israel on 7 OCT 2023. In response, Israel Defense Forces began air strikes on Gaza Strip on the same day.
- Attacks on Israel by Hezbollah, a pro-Iranian armed group in Lebanon occur frequently.
- The agreement on the release of hostages and ceasefire was reached on 15 JAN 2025.

# 2 Sky and Space Surrounding Japan: Scrambles

- The number of scrambles for FY 2024 is **704 times**
- Since FY 2013, the number of scrambles has remained **at a high level of over 700 times in a single FY.**

## Number and Breakdown of Scrambles since post-Cold War

## Chinese Aircraft

### Fighter

J-16

(30 NOV 2024)

### SIGINT aircraft

Y-9

(30 NOV 2024)

### UAV

TB-001

(3 NOV 2024)

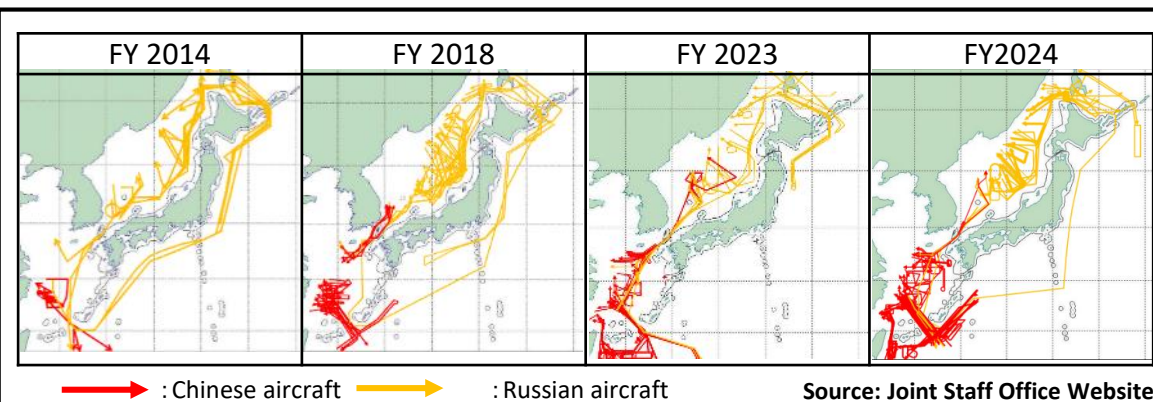

### Bomber

H-6

(29 NOV 2024)

## Flight Patterns of Russian and Chinese Aircraft to Which Scrambles Responded

## Russian Aircraft

### Fighter

Su-35

(29 NOV 2024)

### SIGINT aircraft

IL-20

(21 NOV 2024)

### Bomber

Tu-95

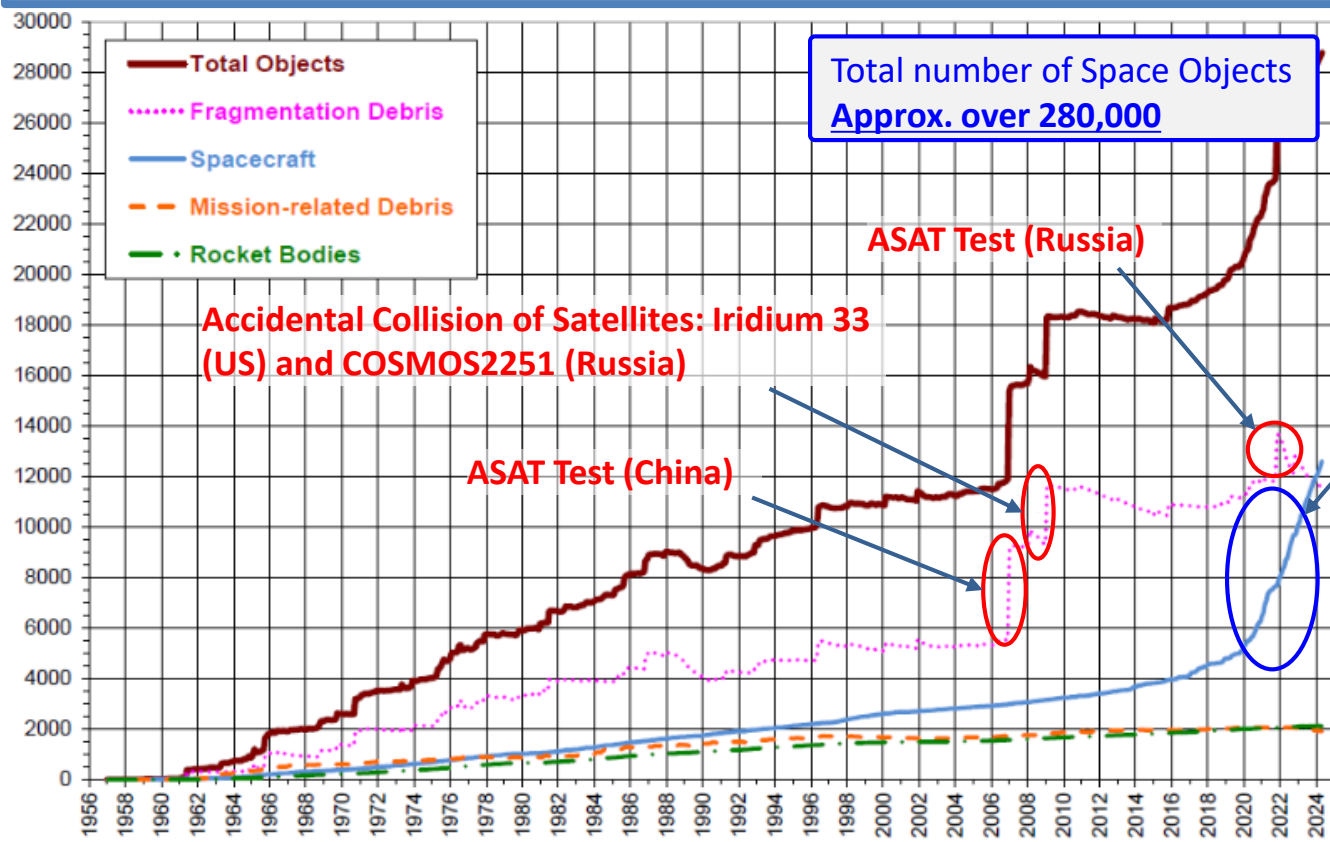

(30 NOV 2024)

## 2 Sky and Space Surrounding Japan: Situation in Space

- Space systems are **important infrastructure** for Japan, and essential for **maximizing capabilities of C2 and equipment**
- Major countries have enhanced capabilities of ISR, Early Warning, Positioning, Navigation and Timing (PNT) and Communications satellites and tried to launch them to strengthen C4ISR functions.
- On the other hand, **ASAT** have been developed to hinder other countries' use of space, and numerous space debris was created by ASAT tests by China and Russia.
- Cyber attacks on space systems **increase the threat to the stable use of space.**
- Countries focus on **SDA** to monitor threats to space assets.

### Commercial Satellite Constellations

- C4ISR: Command, Control, Communication, Computer, Intelligence, Surveillance and Reconnaissance
- ASAT: Anti-Satellite Weapon
- SDA: Space Domain Awareness

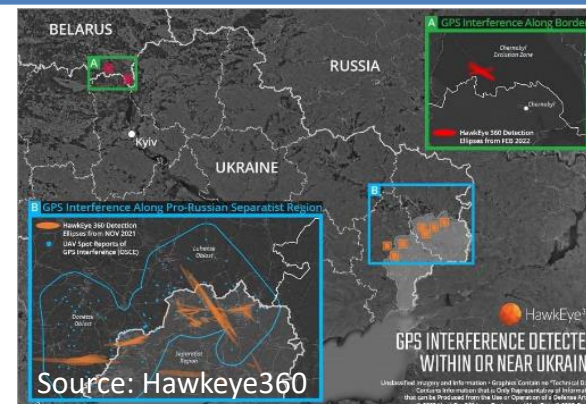

# 2 Sky and Space Surrounding Japan: Situation in Space

- China has remarkably increased the number of launches, six times increase in 12 years since 2012.
- **Threats in space domain have increased** including ASAT tests by China and Russia, GPS jamming and cyber attacks on space systems.
- North Korea launched rockets aiming at sending satellites in May, August and November. We have confirmed that the object launched by North Korea in November has been orbiting the Earth.

ASAT Test by Russia

North Korea's launch of  
"Military Reconnaissance Satellite"

# 3 Security Environment Surrounding Japan: China

- China has rapidly increased announced defense budget (28 times in 30 years, 2 times in 10 years)
- Sustained high-level growth of its defense budget, engaging in broad, rapid improvement of its military power in quality and quantity.

## Changes in China's Announced Defense Budget

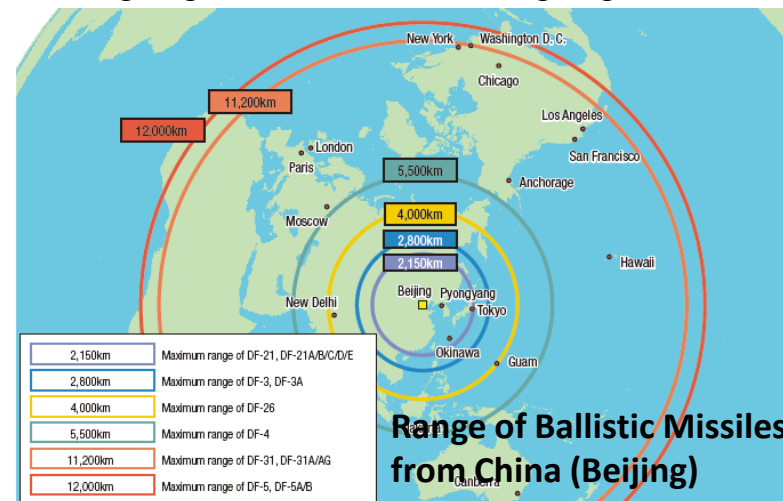

DF-41 ICBM

Max firing range: 11,200km

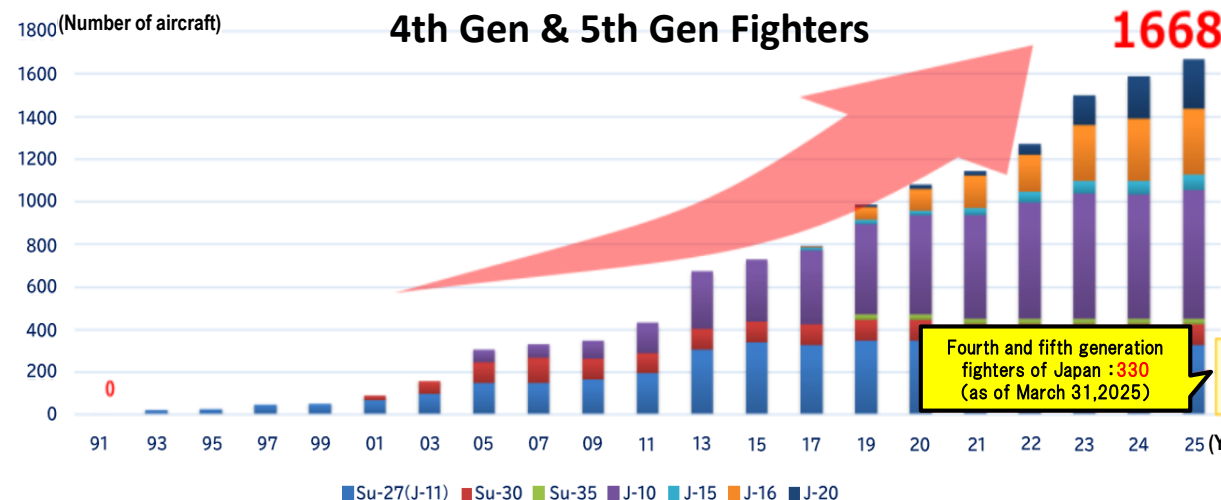

DF-17 MRBM

Max firing range: 2,000km

## 4th Gen & 5th Gen Fighters

Ministry of Defense Website

# 3 Security Environment Surrounding Japan: China

- PLA has expanded its activities in the sea and airspace surrounding Japan.
- Activities show the improvement in practical integrated operational capabilities.
- Increases military pressure on Taiwan, entrenches its military foothold in the SCS, and strengthens collaboration with Russia.
- These military trends are **serious concern for Japan and the international community**.

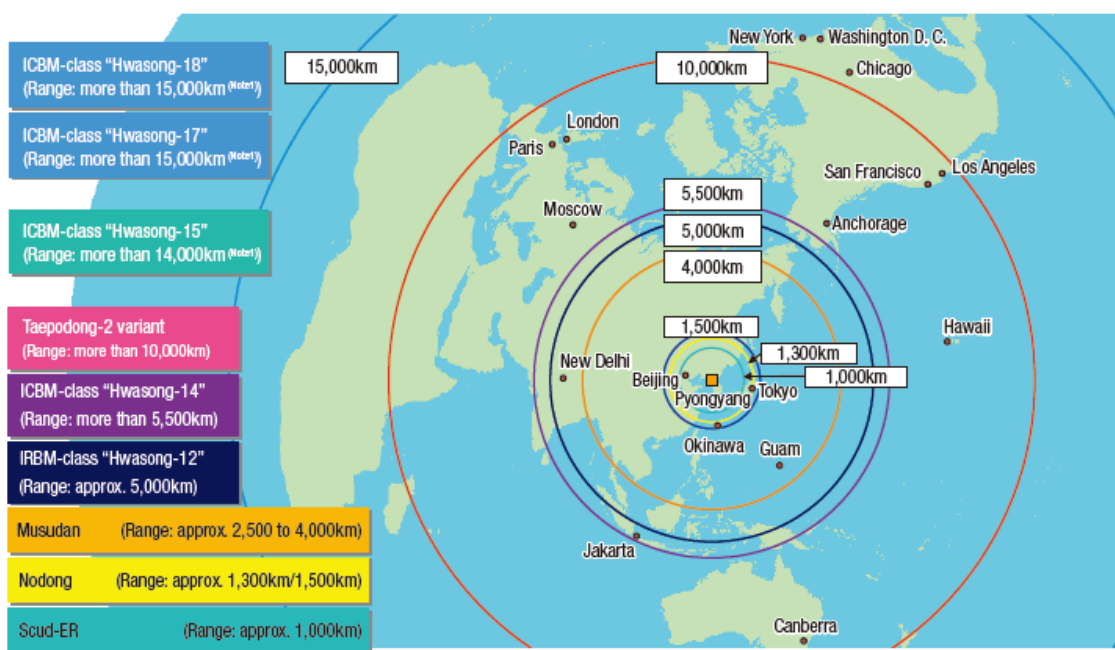

# 3 Security Environment Surrounding Japan: North Korea

- North Korea's ultimate goal appears to be maintaining its regime, it recognizes that building its own nuclear deterrent is essential to counter the U.S.
- Possesses capabilities to **mount a nuclear warhead on its BM** whose range covers Japan.
- Develops **SRBM that can fly at low altitudes with irregular trajectory** and expands **more practical missile force**.
- Regarding Russia's aggression against Ukraine, North Korea supplies BM and dispatches soldiers to Russia, **unprecedentedly strengthening military cooperation with Russia**.
- North Korea's military trends pose **a more serious and imminent threat than ever before**.

Range of North Korea's Ballistic Missiles

(Notes) 1 Depends on weight of the warhead, etc.  
2 For simplicity, the distance from Pyongyang is displayed in concentric circles as an image.  
3 Quotation marks indicate the names used by North Korea.

Trends in Nuclear Tests and BM Launches by North Korea  
as of SEP 2024

# 3 Security Environment Surrounding Japan: North Korea

## Development of Missile-related Technologies

### Surprise Attack Capabilities

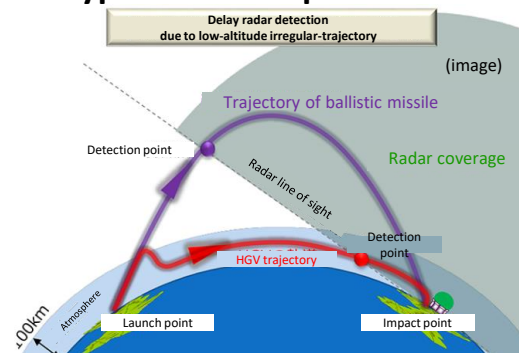

- ◆ Launch from various platforms
- ◆ Use solid fuel

⇒ Complicate indication of warning detection and interception of missiles

### Practical Skills for Missile Operations

- ◆ Fly at low altitudes with irregular trajectory
- ◆ Hypersonic weapons

⇒ Complicate interception

### Long-Range Missile

Hwasong-17,  
Hwasong-18,  
Hwasong-19  
Range: 15,000km~

Hwasong-15  
Range: 14,000km~

Hwasong-14  
Range: 5,500km~

⇒ It may lead to an **increase and escalation of military provocations**

## Development of Missile Capabilities

- ◆ Multiple Missile Launch

Multiple BM launch  
(MAY 2024)

- ◆ Less than 1 minute Interval

- ◆ Launch from Various Sites

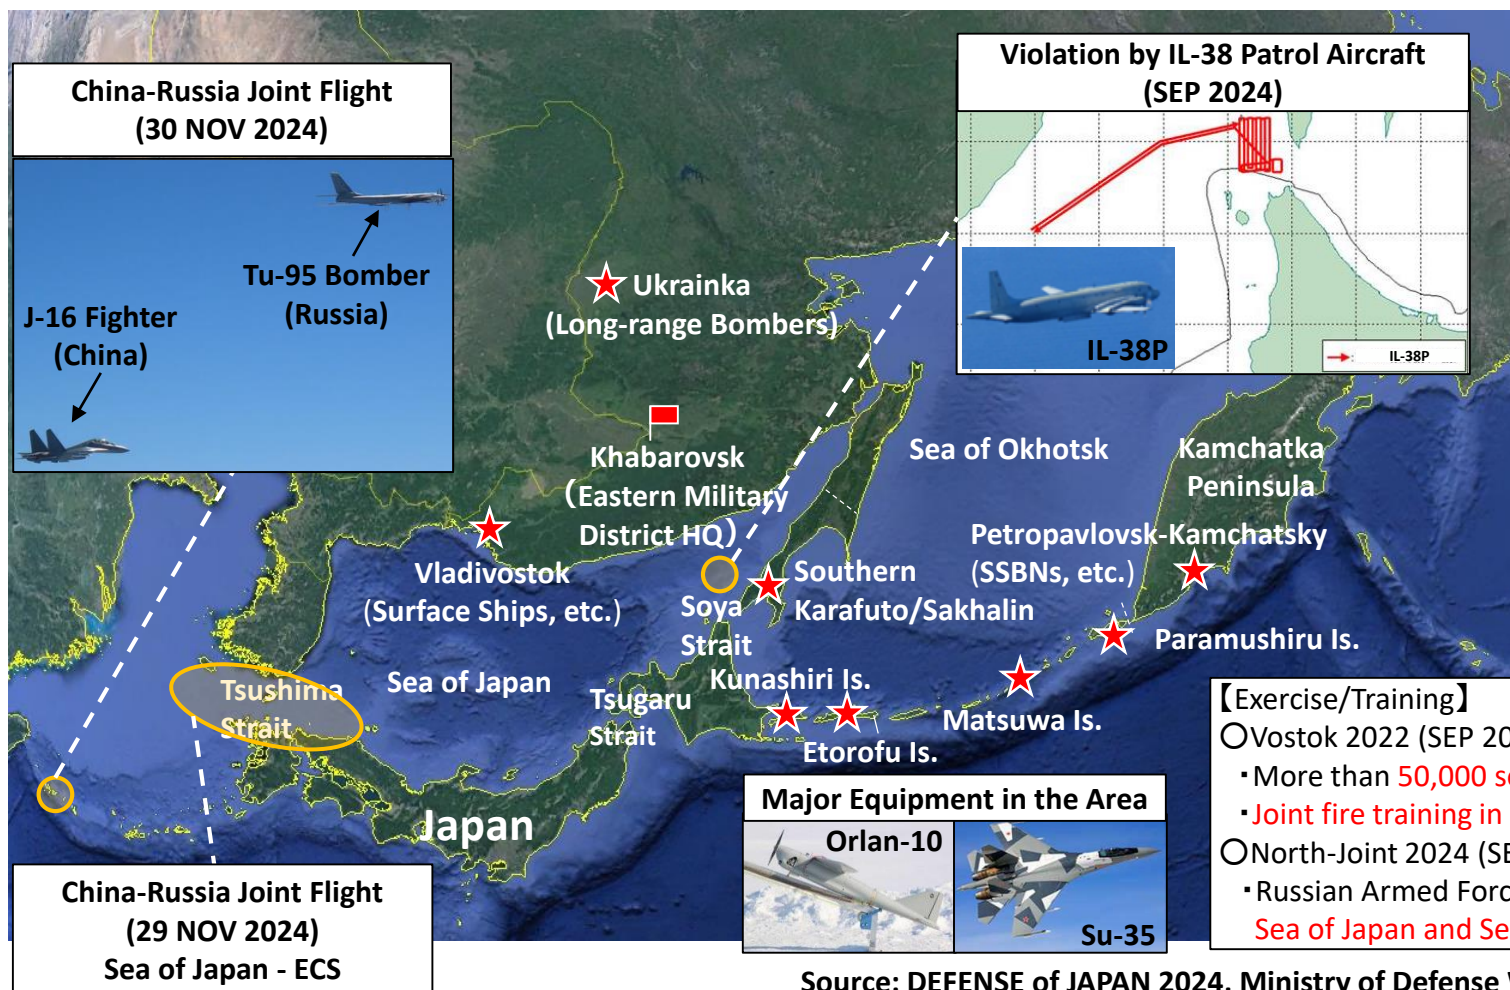

⇒ Develop missile-related technologies and practical skills for **saturation attack**

# 3 Security Environment Surrounding Japan: Russia

- Pursue a Russian revival under the banner of "strong state" and "influential great power."
- Clarify commitment to modernize strategic nuclear weapons
- Continue intensified activities such as **introducing new equipment and conducting exercises**, and **strengthen strategic cooperation with China**.
- **Raise strong security concern** coupled with its strategic cooperation with China

## Russian Far East force's New Equipment

## 【Exercise/Training】

- Vostok 2022 (SEP 2022)
  - More than **50,000 soldiers**
  - **Joint fire training in the Sea of Japan with PLA Navy**
- North-Joint 2024 (SEP 2024)
  - Russian Armed Forces participated in PLA's exercise at **Sea of Japan and Sea of Okhotsk**

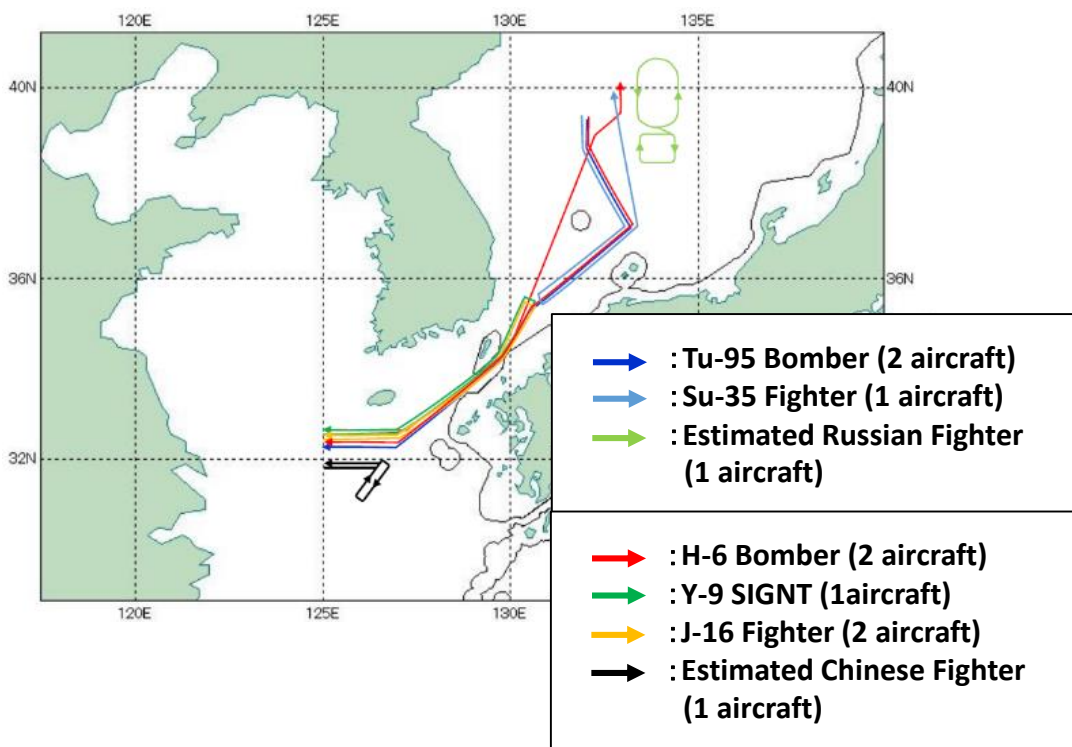

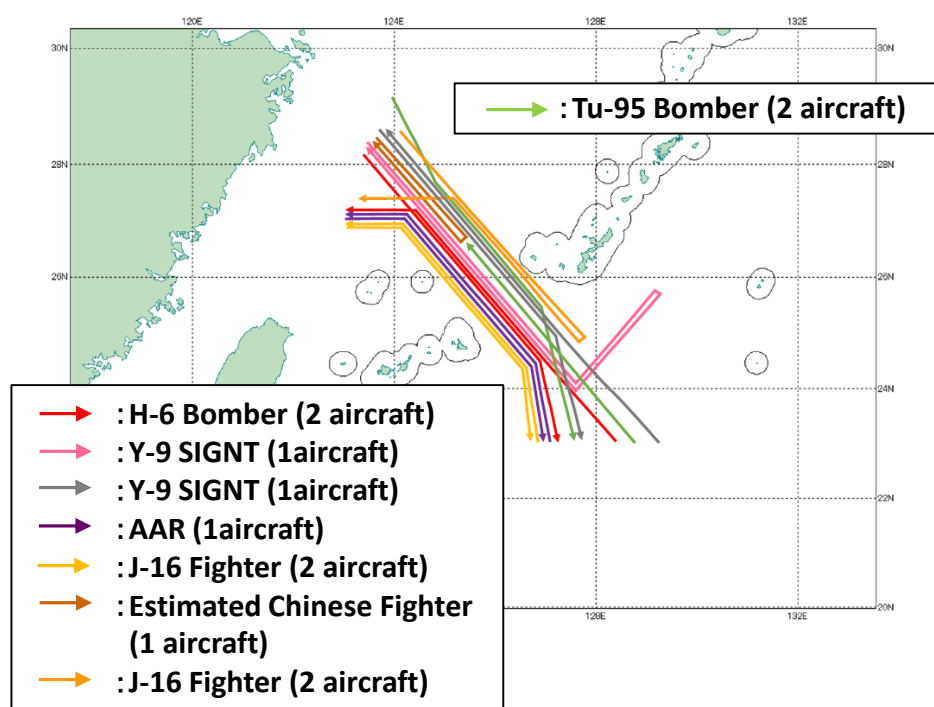

# 3 Security Environment Surrounding Japan: Joint Flight

- Since 2019, China and Russia has conducted joint flight in Sea of Japan, ECS and Pacific Ocean.
- **Mutual landing** and **flying with fighters**
- Declare conducting regular joint flight in Joint Statement on MAR 2023.

China-Russia Joint Flight (29 NOV 2024)

China-Russia Joint Flight (30 NOV 2024)

# **II**

## **Air Defense Capability & Missions of Koku-Jieitai**

- 1 Missions and Operations of Koku-Jieitai**
- 2 Characteristics of Air Defense Capability**
- 3 Organization of Koku-Jieitai**
- 4 Cooperation with the Ally and Like-Minded Countries**

# 1 Missions and Operations of Koku-Jieitai

## SDF Law, Article 3 [Missions of the Self-Defense Forces]

- Protect our country in order to ensure its security and protect the peace and independence of our country
- Maintain public safety and order when necessary
- Koku-Jieitai carries out **missions mainly in the airspace**

Action against violation of territorial airspace

## SDF Law, Chapter 6 [Operations of Self-Defense Forces]

- Defense operation (Article 76)
- Civil protection dispatch (Article 77-4)
- Public security operation (Article 78, 81)
- Guarding operation (Article 81-2)
- Maritime safety operations (Article 82)
- Anti-piracy activity (Article 82-2)
- Destruction measures against ballistic missiles, etc. (Article 82-3)
- Disaster relief dispatch (Article 83), Earthquake disaster relief dispatch (Article 83-2)
- Nuclear disaster relief dispatch (Article 83-3)
- Action against violation of territorial airspace (Article 84)
- Rescue of Japanese nationals overseas, Transportation of Japanese nationals overseas (Article 84-3,4)
- Logistics support and other activities, international disaster relief activities, international peace cooperation activities in situations that will have an important influence on Japan's peace and security (Article 84-5)

Destruction measures against ballistic missiles.

Disaster relief dispatch

## SDF Law, Chapter 8 [Miscellaneous Provisions]

- Cooperation in athletic competitions and other events (Article 100-3)
- Transportation of national guests (Article 100-5)

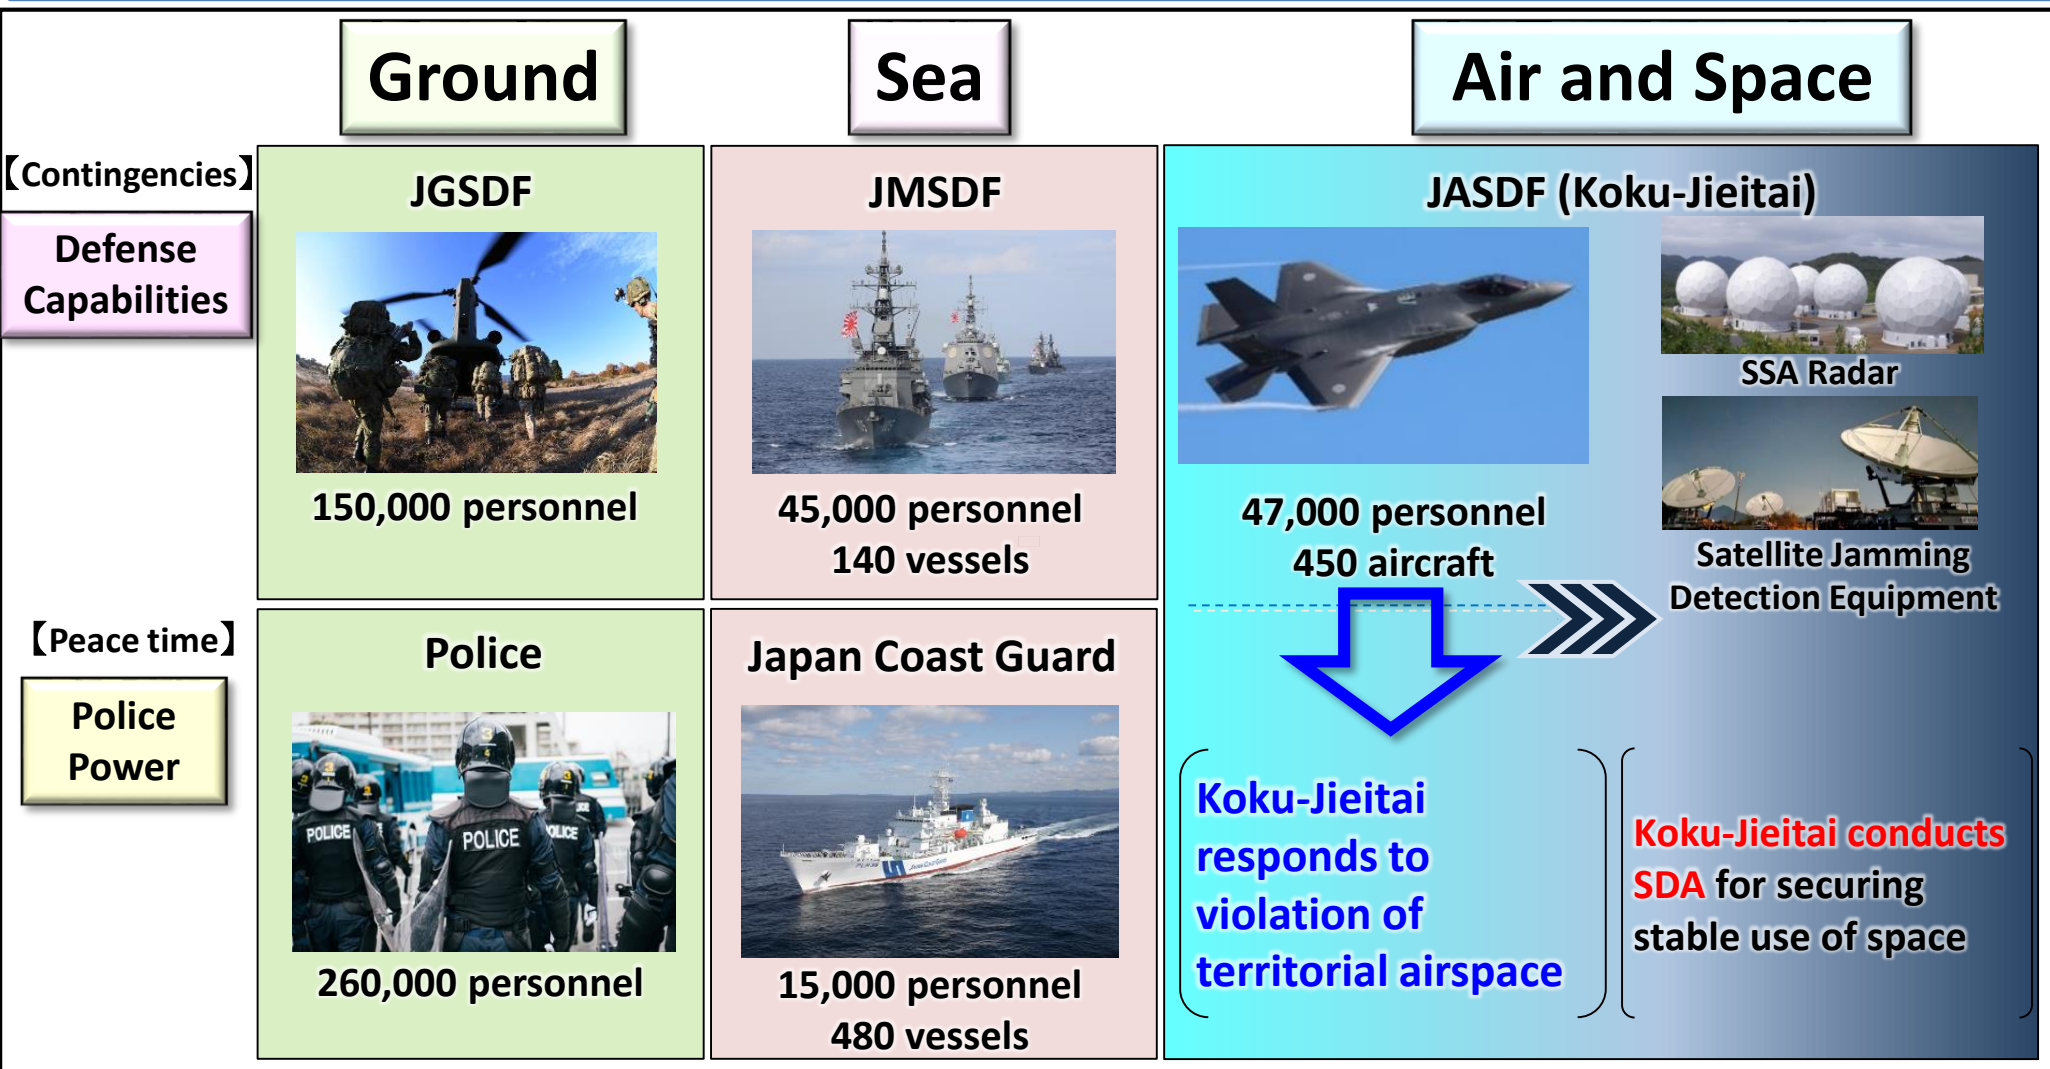

Transportation of Japanese nationals overseas and international emergency assistance

# 1 Missions and Operations of Koku-Jieitai

Koku-Jieitai is **the only organization that protects our sky and space** from peacetime to contingencies

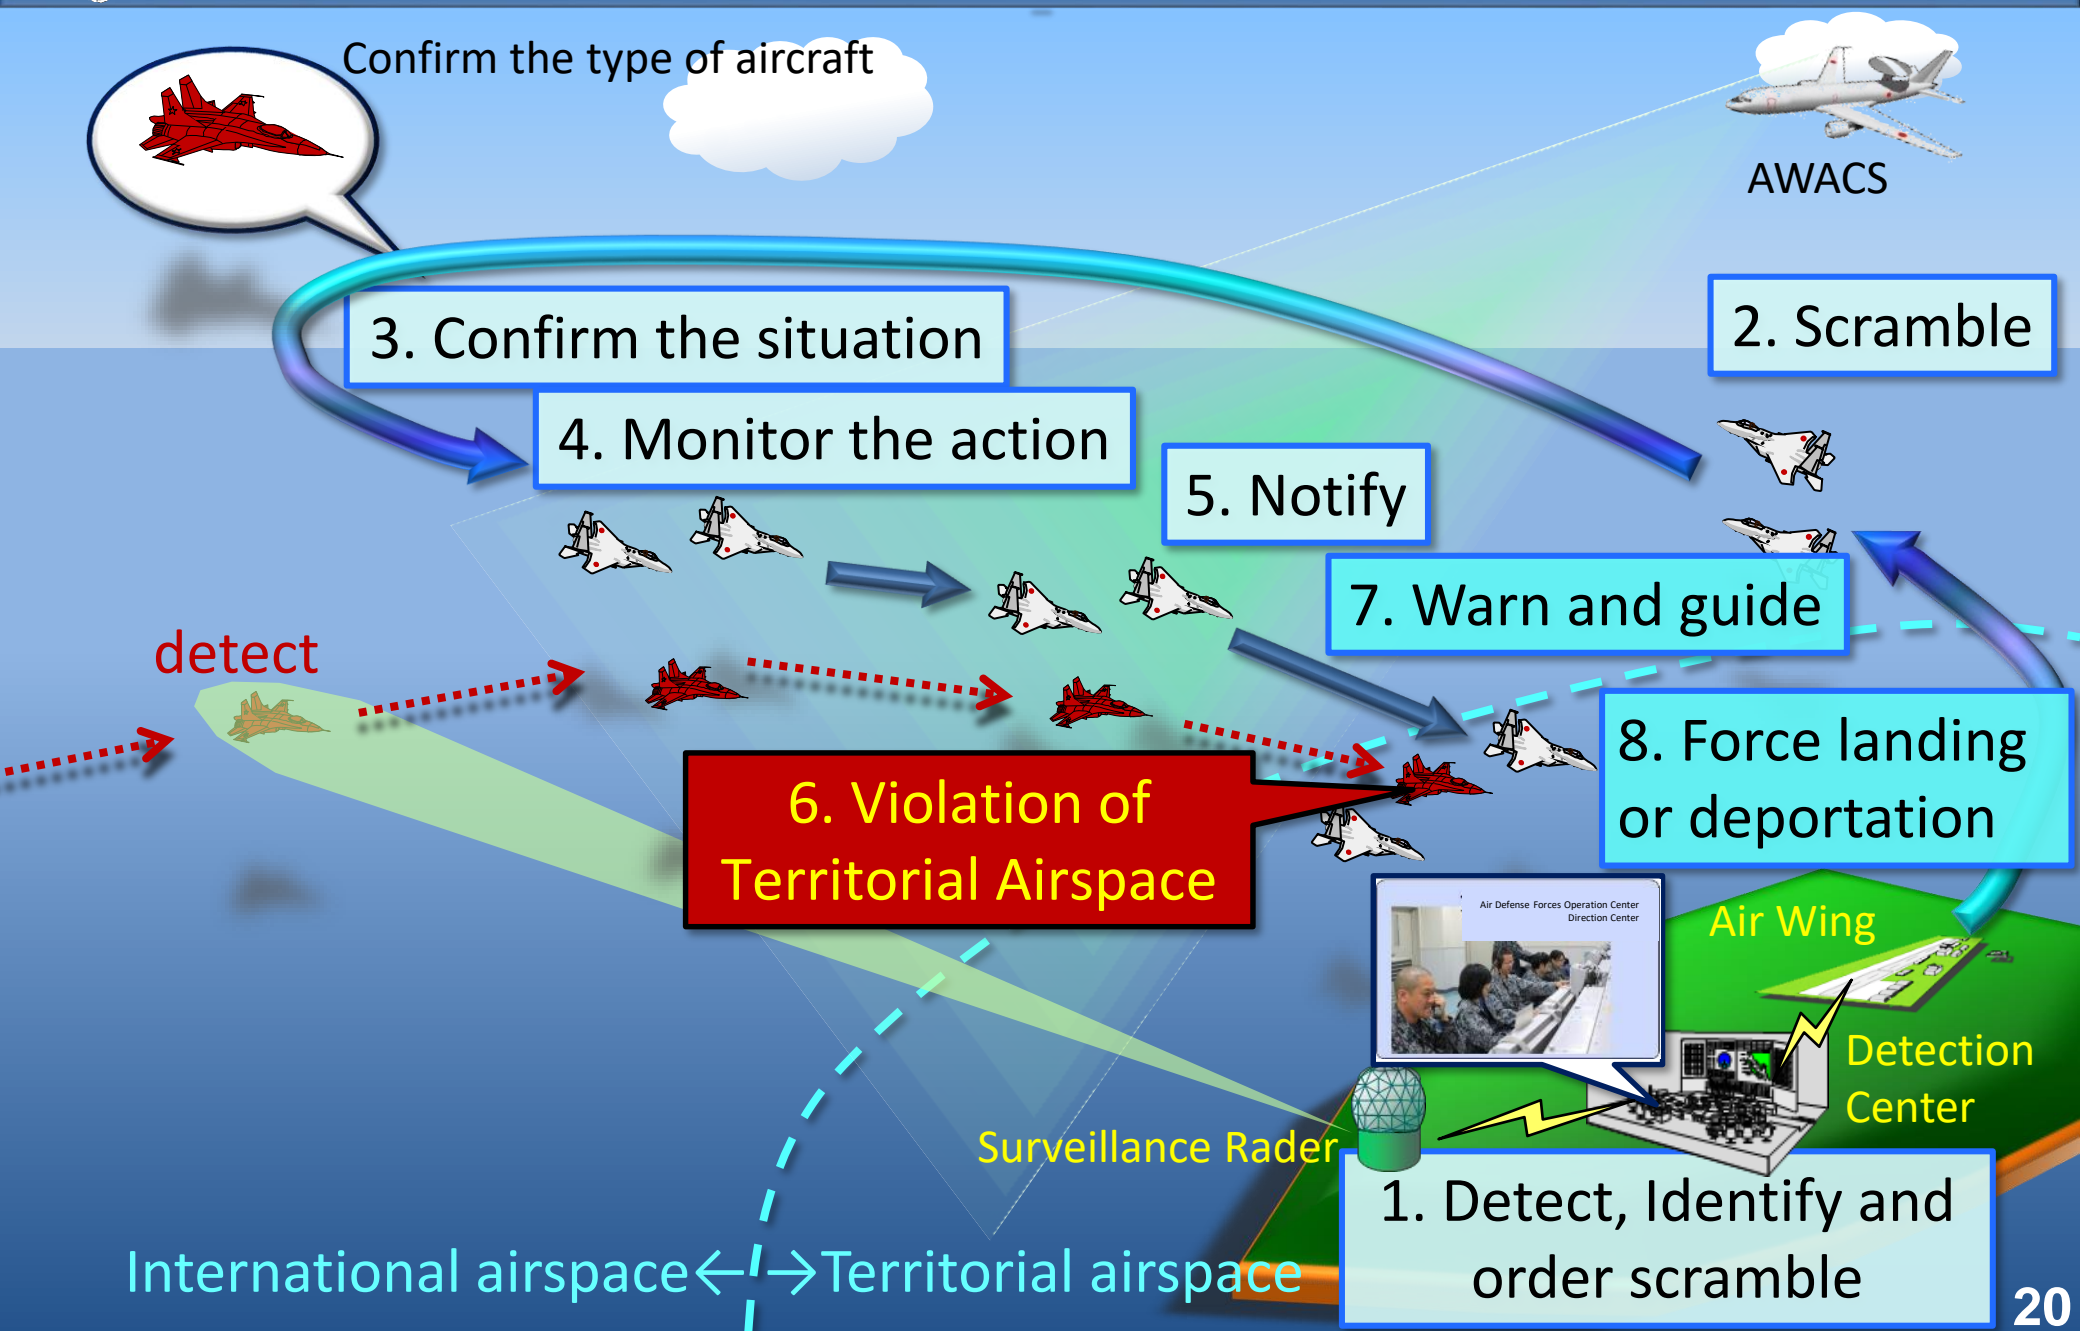

Source: DEFENSE OF JAPAN 2024, WHITE PAPER on POLICE, JAPAN COAST GUARD ANNUAL REPORT

# Action against Violation of Territorial Airspace (Article 84)

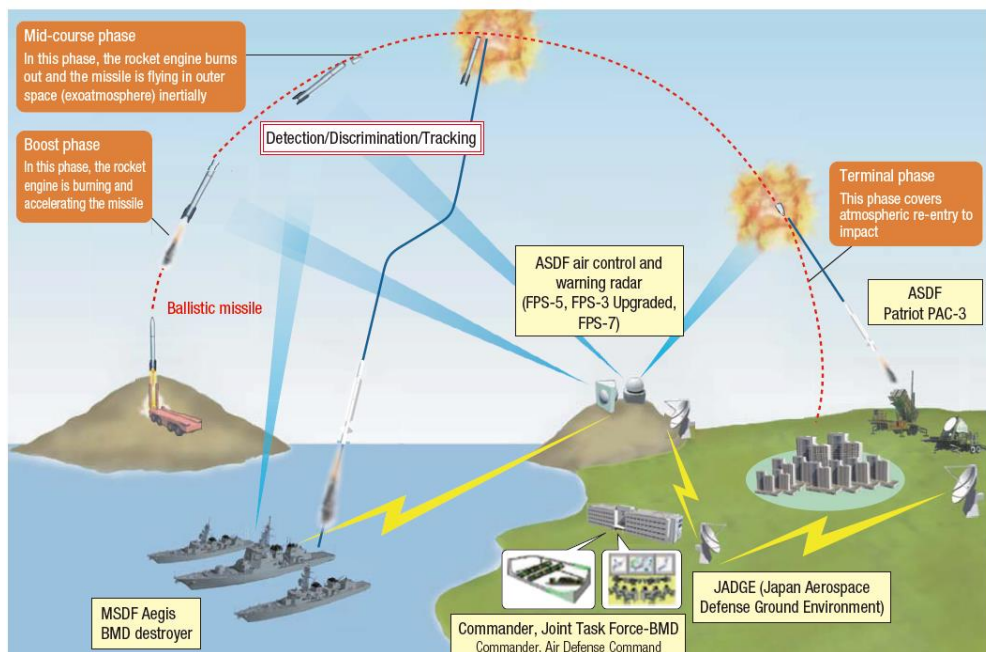

# Destructive Measures against Ballistic Missiles (Article 82-3)

- **Air Defense Command Commander** takes command of **ground, maritime and air components** for BMD under the centralized control of Joint Operations Commander

## Development & Operation Concept of BMD

## Command and Control

**Minister of Defense**

**COS, Joint Staff**

**JSDF**  
**Joint Ops Command Commander**

**Air Defense Command Commander**

**JASDF**  
**AC&W, PATRIOT Units**

**JMSDF**  
**Aegis Destroyers**

**JGSD**  
**Units**

\*BMD : Ballistic Missile Defense

# Disaster Relief Dispatch (Article 83)

## Heavy Rainfalls Disaster Relief in Noto Peninsula, Ishikawa (SEP 2024)

SAR in Futegawamachi, Wajima (22 SEP)

Information gathering by UH-60J (landslide) (22 SEP)

Transport personnel & supplies by UH-60J (25 SEP)

SAR in Machinomachi, Wajima (6 OCT)

# Disaster Relief Dispatch (Article 83)

## Aeromedical Evacuation (FY24)

Okushiri Island - Hakodate (U-125A)

Rishiri Island - Sapporo (U-125A)

Tsushima Island - Fukuoka (U-125A)

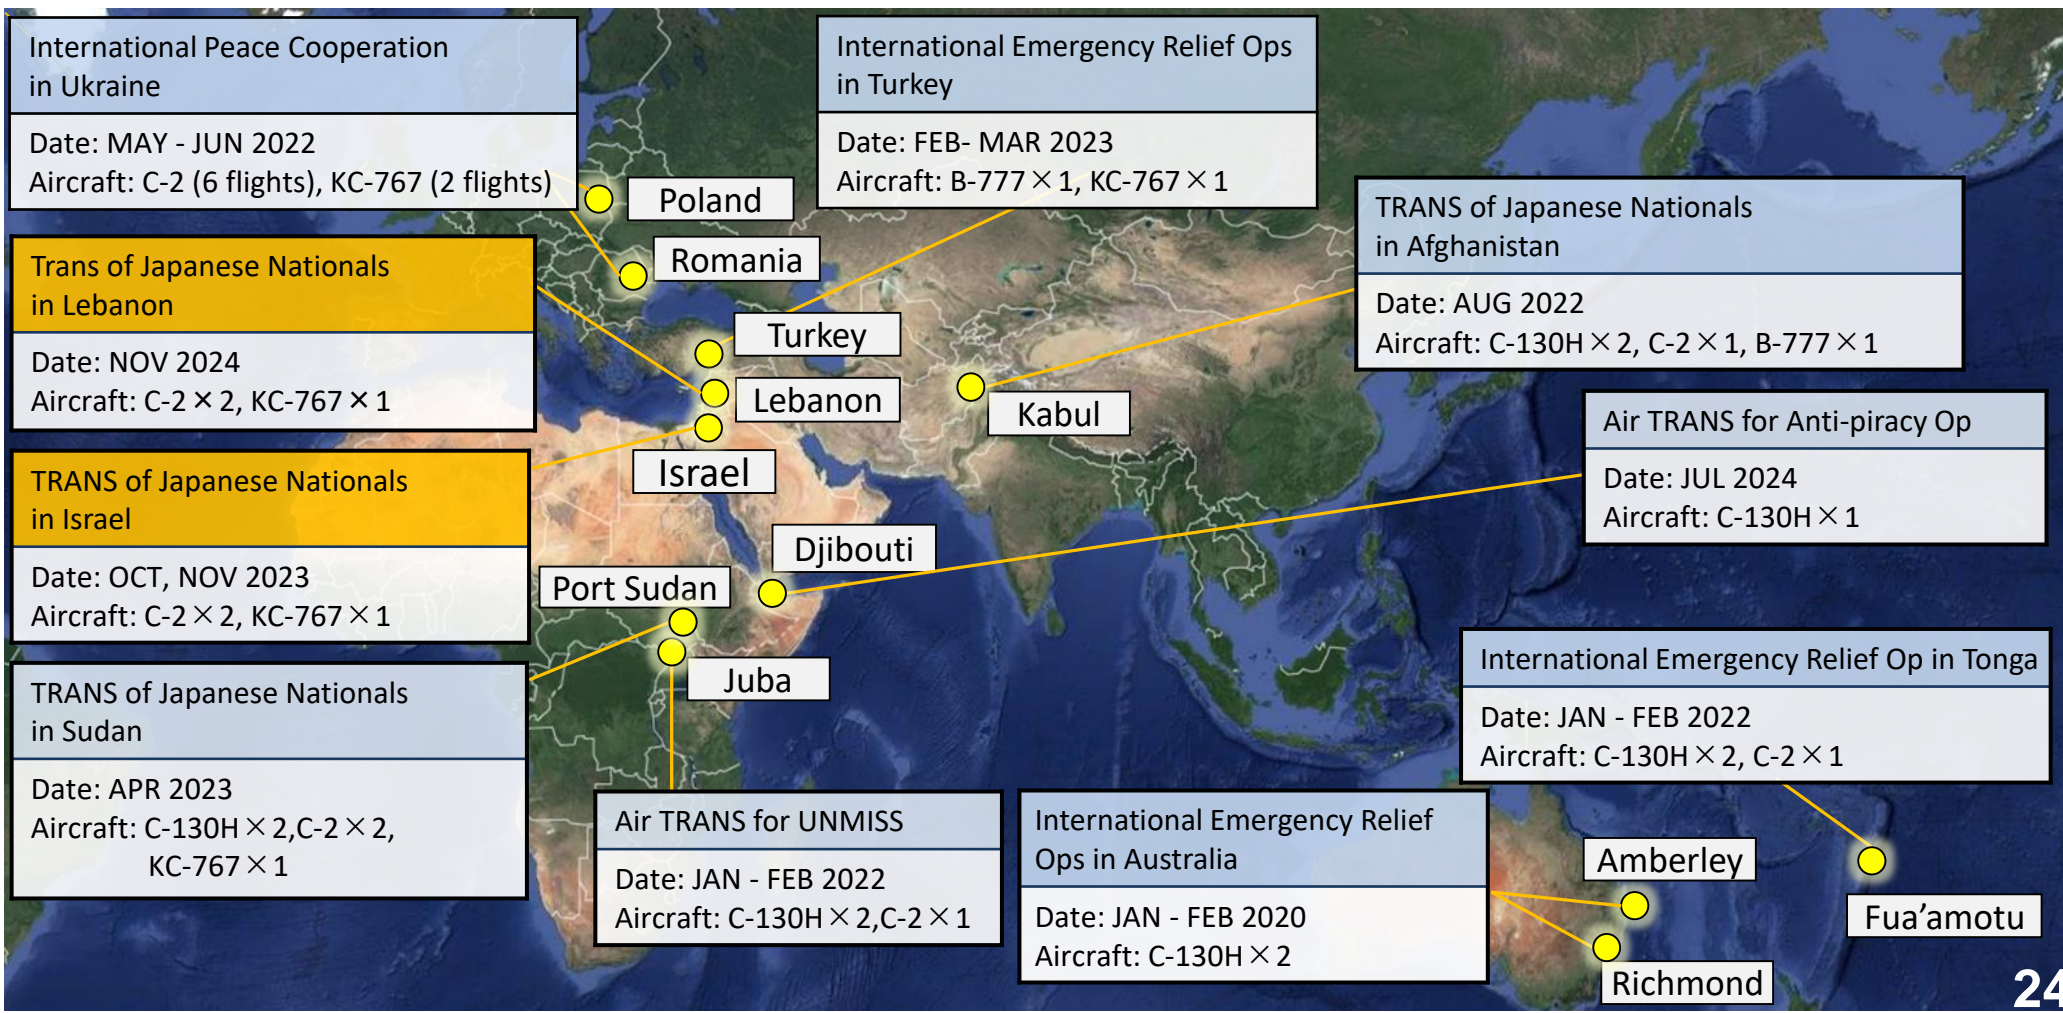

Southeast offshore Naha Airport - Naha (UH-60J)

Activity	Engagement (JASDF)	
MEDEVAC	UH-60J, U-125A, C-2, C-130H	31 cases

# Transportation of Japanese Nationals Overseas/International Emergency Relief Operation (Article 84-4)

- Since the first international PKO to Cambodia in 1992, Koku-Jieitai has conducted **international emergency relief operations, air transportation and transportation of Japanese nationals overseas for over 30 years.**
- **Transportation of Japanese Nationals Overseas from Lebanon to Jordan in 2024**

# Transportation of Japanese Nationals Overseas/International Emergency Relief Operation (Article 84-4)

## Transportation of Japanese nationals in Lebanon (4 OCT 2024)

➤ C-2 flew from Jordan to Lebanon and transported 16 Japanese nationals.

C-2 departing from Jordan to Lebanon

Inside the plane

JASDF crew waiting for C-2 in Lebanon

JASDF crew seeing off Japanese nationals  
in Jordan

# VIP Transportation (Article 100-5)

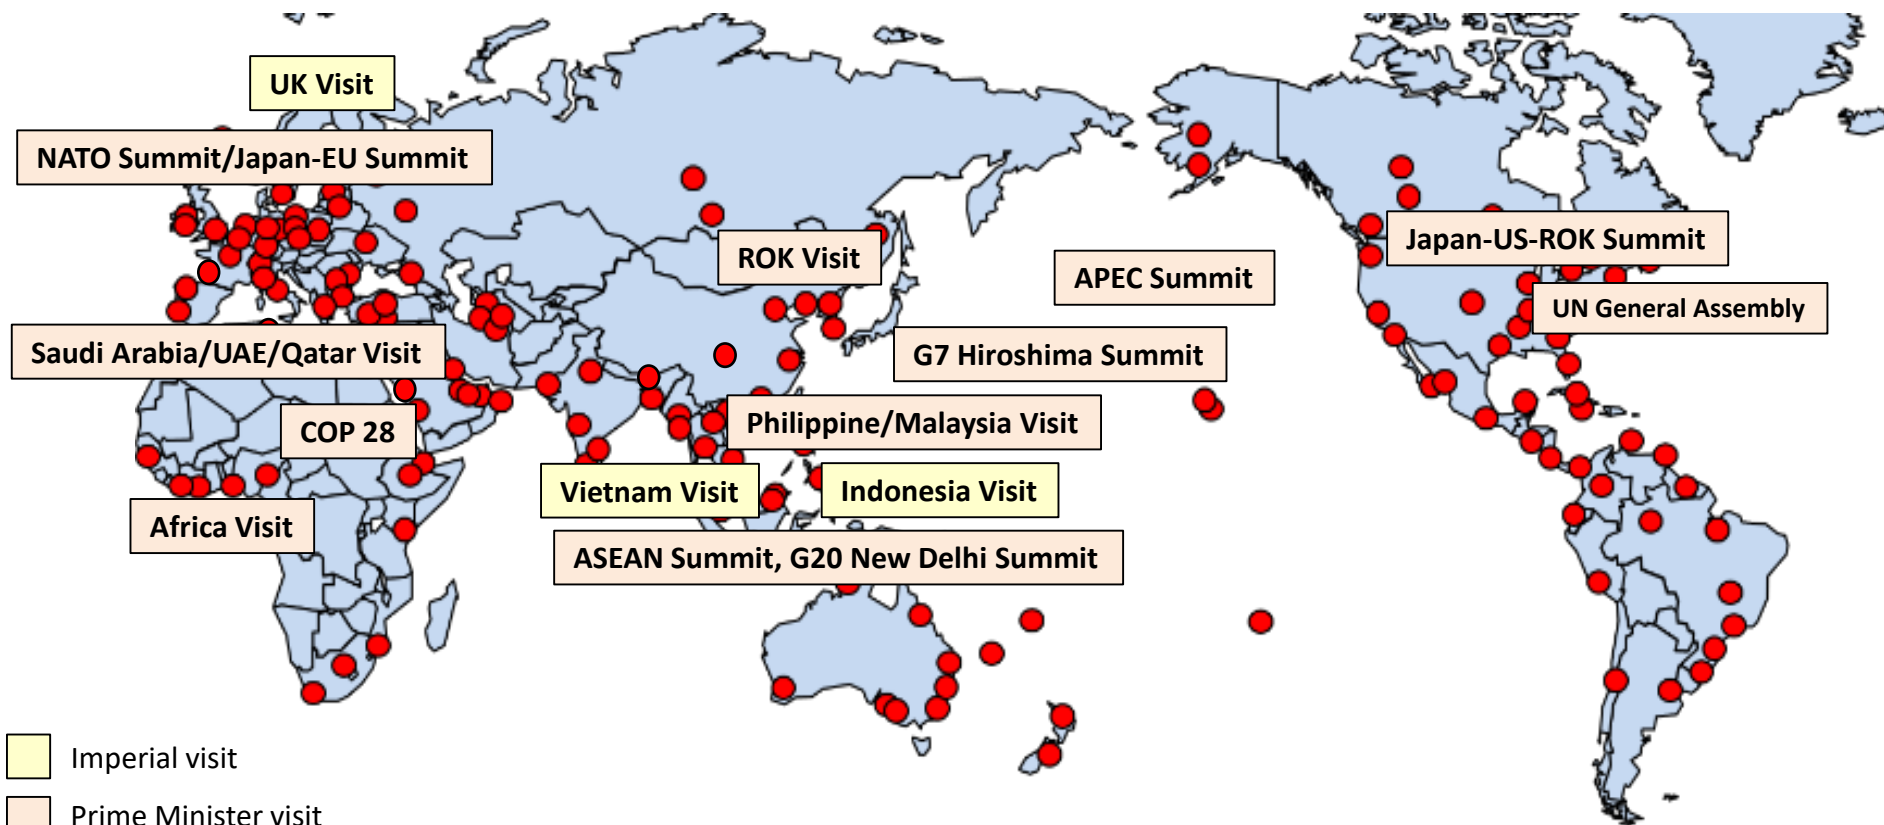

- Have conducted VIP transport since 1993
- 374 flight missions (as of 21 FEB 2025)  
B-747: 318 times, B-777: 56 times
- Visited 101 countries/281 cities

Inside the plane

VIP transportation  
(Prime Minister)

## 2 Characteristics of Air Defense Capabilities

### Air Defense Capabilities

Defense Capabilities related to Air such as Aircraft, Radars and Missiles

Fighter Units

AC & W Units

SAM Units

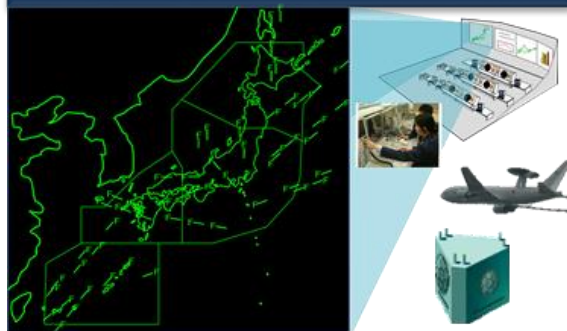

# 2 Characteristics of Air Defense Capabilities

## Readiness & Agility

## Surveillance Capabilities

## Affected by Weather

## Flexibility & Diversity

## C3 Capabilities

## Vulnerable on the Ground

## Penetration & Survivability

## Response Capability

## Require Long-Term Effort

Acquisition

Education

# 3 Organization chart of Koku-Jieitai

Koku-Jieitai: approx. 50,000 personnel (2,800 civilian)

# 3 Organization of Koku-Jieitai: Air Defense Command

## Northern Air Defense Force

Chitose  
(Hokkaido)

## Central Air Defense Force

Komatsu  
(Ishikawa)

Misawa  
(Aomori)

Aerial refueling / transport unit: 2 SQs  
Flight check unit: 1 SQ  
Special airlift unit: 1 SQ

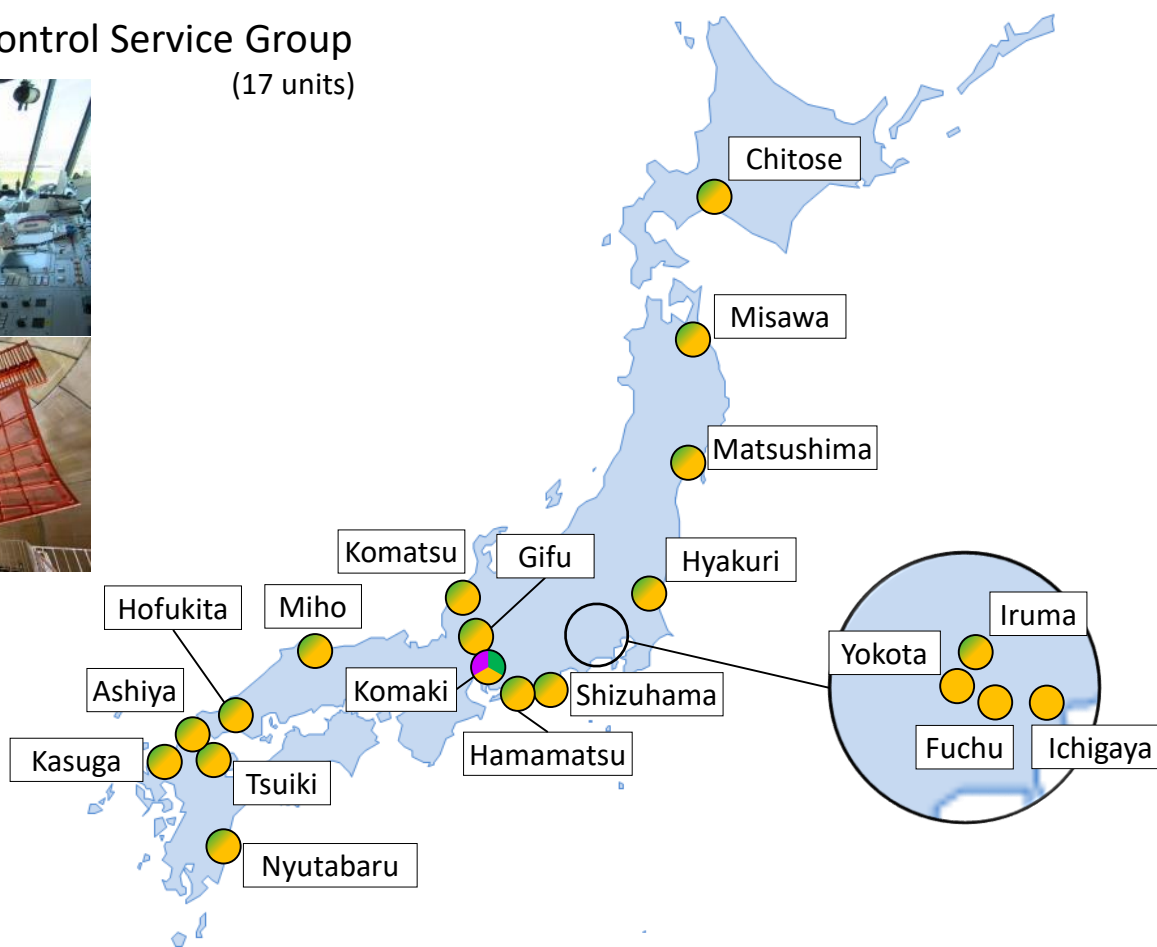

# 3 Organization chart of Koku-Jieitai: Air Support Command

 Air Traffic Control Service Group  
(17 units)

 Air Weather Service Group  
(20 units)

 Aeromedical Evacuation Squadron

Naha

# 3 Organization of Koku-Jieitai: Air Training Command

# 3 Organization of Koku-Jieitai: Air Development and Test Command

**Commander, Air Development and Test Command**

**HQs, Air Development and Test Command  
(Fuchu)**

**Air Development and Test Wing  
(Gifu)**

- Test, evaluate and basic operational research of aviation equipment
- Support Acquisition, Technology & Logistics Agency (ATLA)
- Test flight for receiving based on request from ATLA
- Education and training for test pilots

**Electronics Development & Test Group  
(Fuchu)**

- Test, evaluate and conduct basic operational research of ground communication electronics equipment
- Support ATLA
- Technical research regarding radio wave and quality of communications

**Aeromedical Laboratory  
(Iruma)**

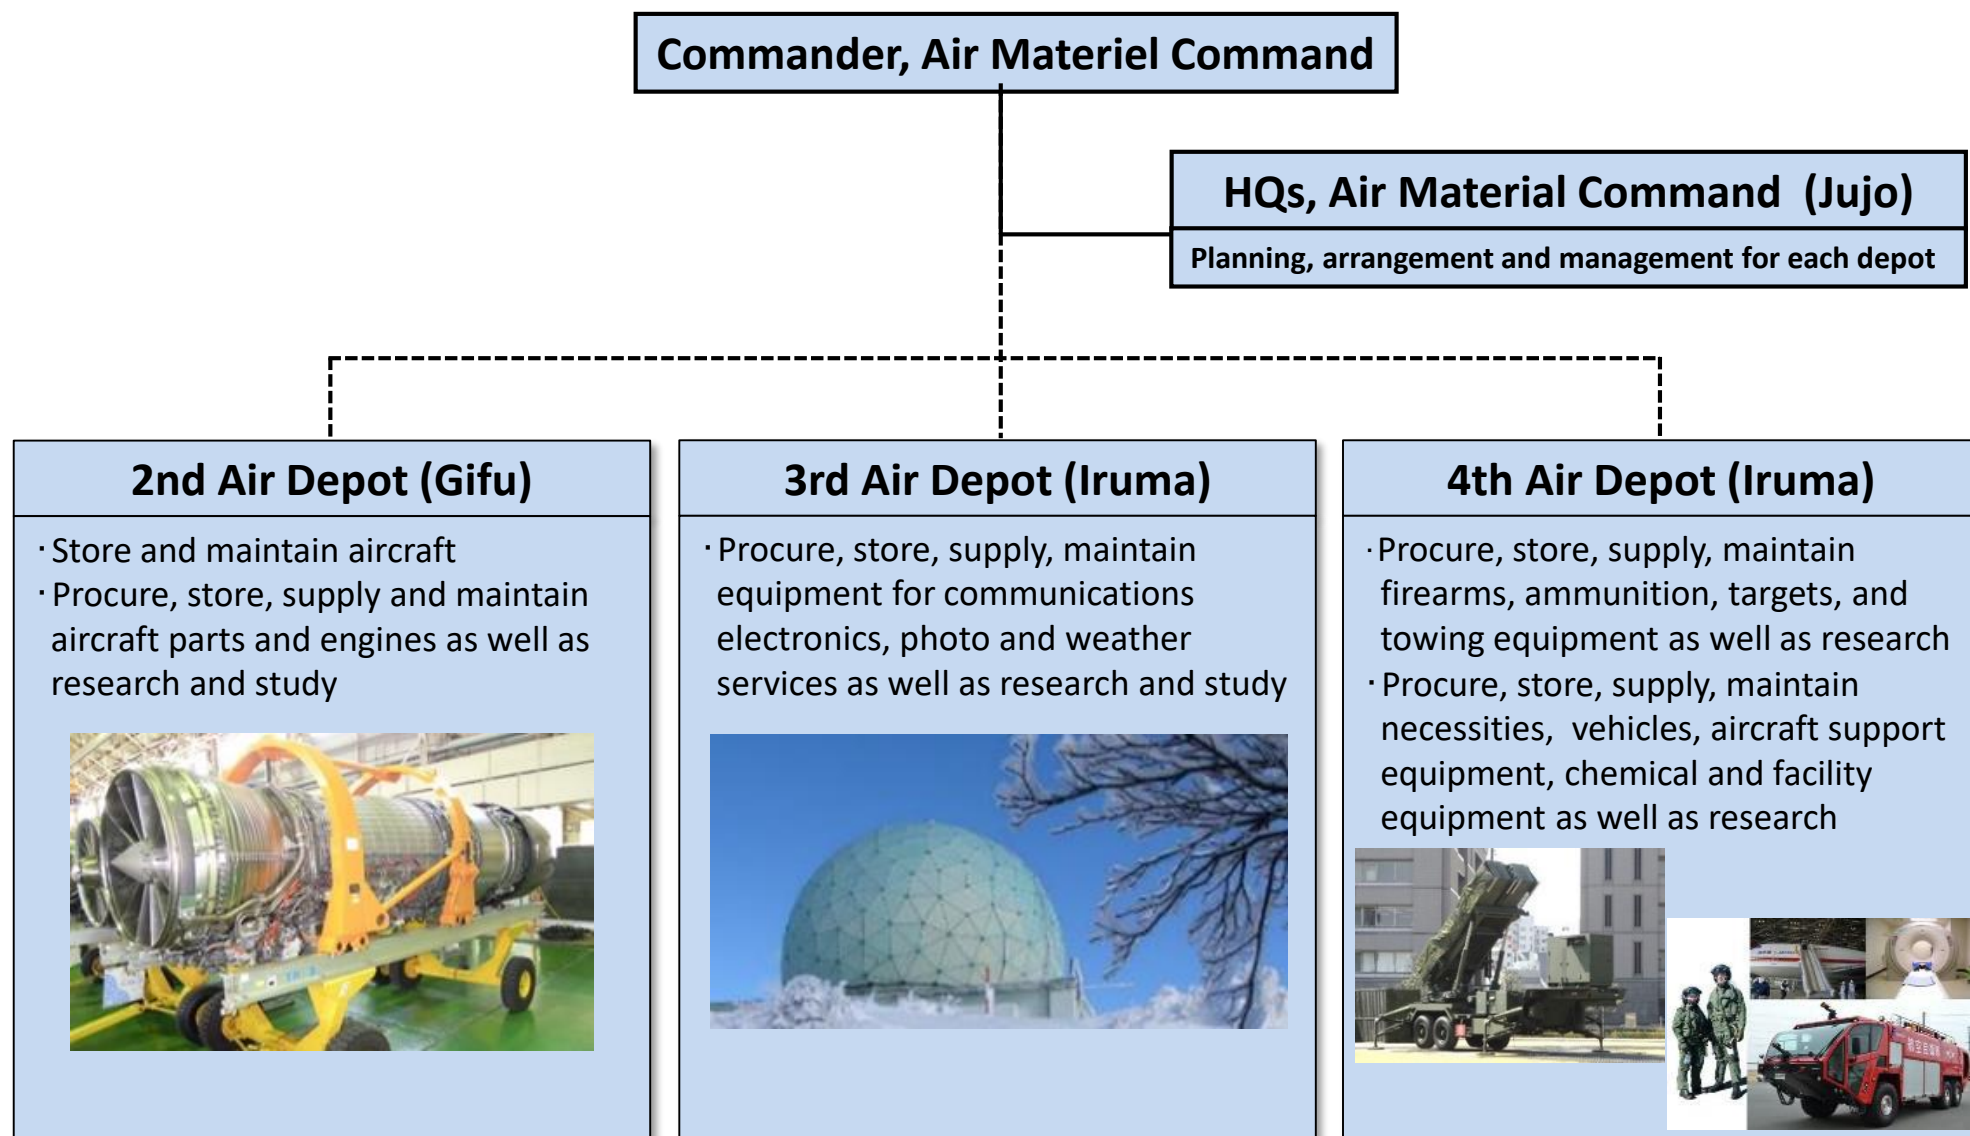

- Research on aviation medicine, and preventing accident
- Practical test
- Evaluate and training
- Information gathering and education on flight safety
- Site survey for accidents
- Cooperation with other services, ATLA

# 3 Organization of Koku-Jieitai: Air Materiel Command

Note: Broken line shows it is under the command and control of Commander, Air Material Command

# 3 Organization of Koku-Jieitai: Space Operations Group

## 【Defense Buildup Plan (16 DEC 2022)】

- Establish new space unit commanded by a General Officer
- Koku-Jieitai will be renamed Koku-Uchu-Jieitai (Uchu= Space)
- Collaborate with civilian space industry to accelerate the capability development

- Mar 2024  
Space Operations GP

## 【National Defense Program Guidelines since 2019】

Koku-Jieitai will possess space-specialized unit

310 personnel as of Mar 2025

# Posture Development of Koku-Jieitai in Space Domain

# III

## **Future Defense Posture of Koku-Jieitai**

- 1 National Security Strategy of Japan/  
National Defense Strategy/  
National Defense Buildup Program**
- 2 Corner Functions for Air Defense Capabilities and  
Seven Priority Fields**
- 3 Main Program of FY2025**
- 4 Cooperation with Ally and Like-minded Countries**

## Strategy Architecture

### National Security Strategy

- Provides strategic guidance for Japan's national security policy areas in addition to diplomacy and defense, including economic security, technology, cyber, intelligence etc. (Executed approximately 10-year timeframe)

### National Defense Strategy

- Sets **defense objectives** and demonstrates **approaches** and **means** by which Japan accomplishes those objectives (Executed approximately 10-year timeframe)

**Koku-Jieitai will be renewed Koku-Uchu-Jieitai (Uchu= Space)**

### Defense Buildup Program

- Sets **the level of defense capability**
  - Organization of Self-Defense Forces (ten years from now)
  - Total expenditures for the next five years and quantities of major procurement

**A new specialized space domain missions unit commanded by a general officer will be established, and Koku-Jieitai will be renamed Koku-Uchu-Jieitai.**

# Seven Fields of Key Fields/Capabilities (Seven Pillars)

➤ We focus on **the 7 fields as functions and capabilities necessary for national defense.**

● **Disrupt and defeat invading forces over long distances, thereby **detering invasion itself****

① Stand-off defense capabilities

② Integrated air and missile defense capabilities

● **Should deterrence fail and an invasion of Japan occur, in addition to ① and ②, leverage manned as well as unmanned assets to **ensure asymmetric advantage and gain superiority across domains** such as underwater, surface, and air.**

③ Unmanned defense capabilities

④ Cross-domain capabilities

⑤ C2 / Intelligence-related functions

⑥ Mobile deployment capabilities / Civil protection

⑦ Sustainability / Resiliency

# 2 Each Function for Air Defense Capabilities & Seven Priority Fields

① Stand-off  
Defense  
Capabilities

② IAMD  
Capabilities

③ Unmanned  
Defense  
Capabilities

④ Cross  
Domain  
Capabilities

⑤ C2/  
Intelligence-  
related Functions

⑥ Mobile  
Deployment  
Capabilities/  
Civil Protection

⑦ Sustainability/  
Resiliency

# 3 Main Program of FY2025

## Stand-off Defense Capabilities

- Acquire Stand-off Missiles (JSM, JASSM)
- Acquire & Upgrade of Launch Platform (F-35A & F-2 Upgrade)
- Develop ACI\* (Target Information Service)

\*Air self-defense force Cloud computing Infrastructure

JSM※<sup>1</sup>  
(conceptual image)

JASSM※<sup>2</sup>  
(conceptual image)

Upgrade F-35A

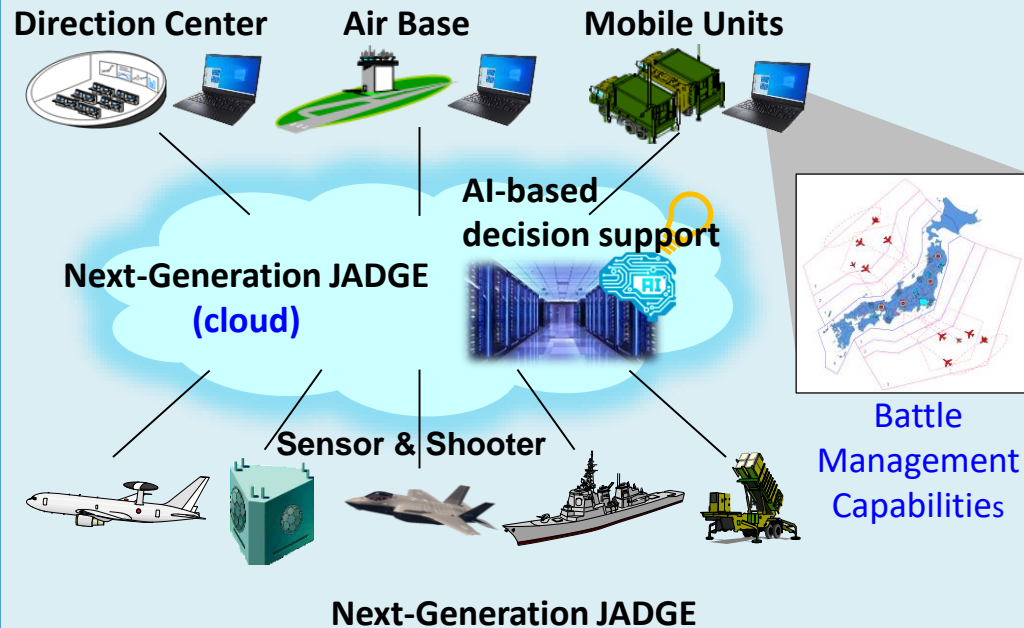

Upgrade F-2

※<sup>1</sup> JSM : Joint Strike Missile

※<sup>2</sup> JASSM : Joint Air-to-Surface Stand-Off Missile

## IAMD Capabilities

- Develop Next-Generation JADGE
- Install Mobile Warning & Control Radars at Kitadaito Island
- Add Functions for FPS-5 & FPS-7 (counter HGV)
- Acquire PAC-3MSE

# 3 Main Program of FY2025

## Unmanned Defense Capabilities

- Measures for RQ-4B Operations

## Cross Domain Capabilities

### ● Strengthen Capabilities in Space Domain

- Satellite Jamming Detection System
- Space Domain Awareness
- Organize Space Operations Wing

Satellite Jamming Detection System

### ● Reinforce Capabilities in Cyber Domain

- Develop the ACI\* (security service)

\*Air self-defense force Cloud computing Infrastructure

- Cyber Education

### ● Enhance Capabilities in Electromagnetic Domain

- Acquire RC-2 (ELINT aircraft)
- Procure F-35A/B, Upgrade F-2

### ● Reinforce Capabilities in Air Assets

- Procure F-35A/B, Upgrade F-2
- Acquire T-6 and Ground Education Device

F-35B (conceptual image)

T-6 (Next Training Fighter Jet)  
(conceptual image)

# 3 Main Program of FY2025

## C2 & Intelligence Functions

### ● C-2 System

- Develop Next-Generation JADGE
- Develop ACI (Command & Control)

### ● Intelligence-related Functions

- Acquire RC-2 (ELINT aircraft)
- Develop Ground-based SIGINT System and Radar (Western, Southwestern area, Kitadaito Island)

J/FLR-4A

## Mobile Deployment Capabilities

- Acquire KC-46A, Train Pilots & Loadmasters
- Promote policies to swiftly maneuver and deploy units

KC-46A

## Sustainability / Resiliency

### ● Securing Ammunitions

- Acquire ammunitions *AIM-120 (conceptual image)*

### ● Maintenance of Equipment

- Acquire Spare Parts  
(according to procurement lead time)
- Acquire Maintenance Equipment for Units/Depos

### ● Improving the Resiliency of Facilities

- Install Dispersion Pads, Camouflage Facilities, Shelters
- Promote Disaster Prevention

### ● Strengthening Medical Function

- Acquire Medical Supplies for First Aid at Front Line and Medical Evacuation
- Secure Blood Products (Blood Test)

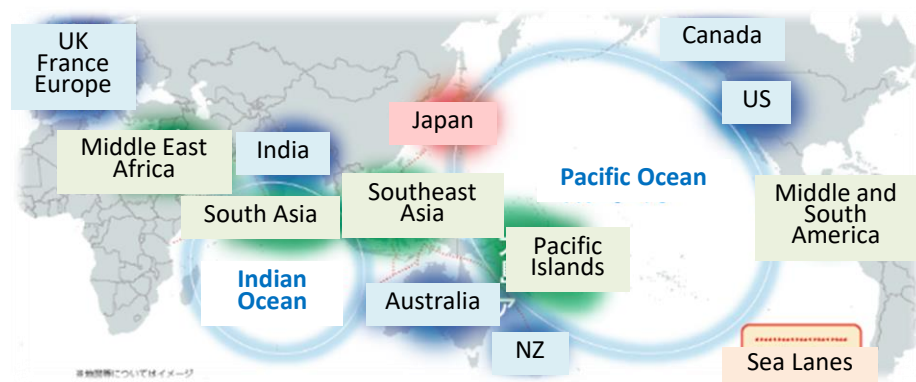

# 4 Cooperation with Ally and Like-minded Countries

## Koku-Jieitai's policies of Defense Cooperation/Exchanges

### FOIP

(Free and Open Indo-Pacific)

- The vision to enhance “connectivity” between Asia and Africa through FOIP and promote stability and prosperity in the region

### Three Strategic Documents

- Strengthen Japan-U.S. Alliance
- Maintain and develop free and open international order and deepening cooperation with ally and like-minded countries

## Koku-Jieitai's efforts on Defense Cooperation/Exchanges

In order to contribute to “Free and Open Indo-Pacific”, Koku-Jieitai proactively promotes the defense cooperation and exchanges such as **high-level exchanges, working-level engagements and joint training** utilizing the **bilateral and multilateral frameworks**.

# 4 Cooperation with Ally and Like-minded Countries

## High-Level-Exchanges

## Unit-to-Unit

### Working-Level Exchanges

FASF

**Mongolia (ATC)@JPN (DEC 2024)**

**Vietnam (Air Rescue)@JPN (NOV 2024)**

**Philippines (Aviation Medicine)@JPN (OCT 2024)**

# IV

- 1 Initiative in Space Domain
- 2 Initiative in GCAP
- 3 Air Force Forum in Japan
- 4 Shipboard Operational Test of F-35B  
on Izumo-class D/D “Kaga”
- 5 Efforts to Secure Human Resources
- 6 Efforts to Prevent Harassment
- 7 Exchange & Collaboration with Local Communities

# 1 Initiative in Space Domain (JAXA, Ally and Like-minded Countries)

○ MAR 2024~

Participate in **Exercise "AsterX 2024"** (Toulouse)

○ DEC 2023~

**Participate in CSpO Initiative** \* CSpO : Combined Space Operations Initiative

○ MAY 2023~

Dispatch Koku-Jieitai personnel to **USSPACECOM HQs** (Peterson SFB)

【Defense Buildup Program (FY2023~FY2027)】

Strengthen cooperation with relevant organizations such as JAXA, ally and like-minded countries

○ JUN 2022~

Dispatch additional Koku-Jieitai personnel to **JAXA**

○ OCT 2020~

Dispatch Koku-Jieitai personnel to

**USSPACECOM Multinational Space Collaboration Cell** (Vandenberg SFB)

○ OCT 2018~

Participate in **"Schriever Wargame"** (Maxwell AFB)

【Med-term Defense Program (FY2019~FY2023)】

Cooperation with relevant agencies such as JAXA and relevant countries

○ 2017~

Dispatch Koku-Jieitai personnel to **JAXA**

# 1 Initiative in Space Domain (Private Companies)

## Provide Space Situational Awareness (SSA) Information to Commercial Satellite Operators

- Provide SSA information to commercial satellite operators since MAR 2023.
- Provide orbit information and analysis information on other satellites and space debris.

## Space Collaboration & Innovation Office

- Establish a small office in central Tokyo to cooperate with civilian agencies since OCT 2023.
- Absorb knowledge of the private sector with high-level space-related technology, as well as synergistically enhance Japan's space capabilities by promoting public-private cooperation.
- Held public-private events in FEB 2024 and FEB 2025.

## 2 Initiative in GCAP\*

\*Global Combat Air Programme

- Promote co-development of GCAP with UK and Italy, aiming deploy first aircraft by FY2035 when F-2 will retire.
- Maintain capability to effectively counter numerically superior opponents, and secure air superiority.
- Coordinate closely with ATLA, reflect user requirements, and cooperate with UK and Italy.
- Establish GIGO (GCAP International Government Organization) Dispatch Koku-Jieitai personnel to UK as staff of GIGO.

Medical Service

Music

Weapons & Munitions

# 5 Efforts to Secure Human Resources (Men's Involvement in Family)

➤ Promote men's involvement in family to be compatible with child and family care.

# 6 Efforts to Prevent Harassment

➤ Make active efforts to **build an environment that does not allow harassment at all.**

## Message from Chief of Staff

"Harassment is an act that destroys mutual trust among SDF personnel and shakes their morale, and must never be allowed to occur."

"Shout only when greeting, commanding and emergency!" (to prevent harassment)

"Have good manners even between good friends." (to prevent sexual harassment)

## Harassment Prevention Month (JAN - FEB 2024)

- **Retain knowledge** by learning some examples
- **Increase awareness** by writing statement
- **Do Not Do, Do Not Allow, and Do Not Overlook harassment**

### ハラスメント防止に関する宣言書

私は、ハラスメントが、隊員の尊厳や人格を傷つけ、隊員相互の信頼関係を失墜させ、精強性を揺るがす、決してあってはならない行為であることを認識し、次のことを宣言します。

- 1 ハラスメントの定義を正しく理解します。
- 2 大切な仲間を尊重し、絶対にハラスメントを起しません。
- 3 ハラスメントを目撃した場合は、決して見逃しません。
- 4 被害に遭った隊員には、しっかりと寄り添います。
- 5 ハラスメントを一切許容しない組織環境を構築します。

**Build an environment that does not allow harassment**

# 7 Exchange & Collaboration with Local Communities

## Demonstration Flight of Blue Impulse

- Deepen trust and contribute to PR activities through demonstration flights of Blue Impulse

## Participation in Disaster Drills

- Build coordination frameworks with local authorities and improving disaster response capabilities

## Training at Civilian Airports

Nagasaki Airport (KS25)

Kumamoto Airport (KS25)

- Familiar with using various civilian airports to response to any contingencies
- Explain carefully to local governments to gain understanding

## Band Performances

- Build good relations with local communities by band music performances at ceremonies of MOD and events throughout Japan, and contribute to PR activities
