The 1st Air and Space Power Symposium 2023

Air and Space Power Symposium

The 1st Air and Space Power Symposium 2023 was held on September 26th, 2023. The theme of the symposium was “Utilization of Air and Space Domain for National Security.” JAXA President Hiroshi YAMAKAWA gave a keynote speech, and not only Japan but also foreign prominent experts and researchers, including Mr. Gunzinger, Mitchell Institute, USA, held discussion sessions. A lot of people participated in the symposium through simultaneous online streaming.
