

Space Operations Squadron Was Launched

The Koku-Jieitai launched Space Operations Squadron on May 18th. Defense Minister KONO Taro conferred the official flag of the squadron on its commander. The squadron of approximately 20 members ensures the stable use of space domain through space situational awareness operations. Located at Fuchu Air Base, it develops space operations, trains space professionals and cooperates with the U.S. space units in an effort to achieve operational readiness in 2023.
