

Royal Australian Air Force KC-30A's visit to Japan

On Mar 28th, Royal Australian Air Force (RAAF) KC-30A arrived at the Komaki Air Base, Koku-Jieitai (JASDF). Koku-Jieitai and RAAF are conducting Air-to-Air Refueling Compatibility Test between F-2(Koku-Jieitai) and KC-30A(RAAF) from 4th to 28th April 2022. The test will contribute to the enhancement of interoperability between our forces, which was agreed to be promoted at the Japan-Australia Defense Ministerial Meeting in October 2020. Koku-Jieitai will uphold and reinforce the Free and Open Indo Pacific through such activities.
