

Meeting with Multilateral Civil Engineering Key Leaders

From June 22 to June 24, Koku-Jieitai (JASDF Japan Air Self-Defense Force) participated in Multilateral Civil Engineering Key Leaders Engagement with Pacific Air Forces (PACAF/USAF), Royal Australian Air Force, the Republic of Singapore Air Force and the Republic of Korea Air Force, at Andersen Air Force Base, Guam, USA.

The purpose of this engagement is to provide a venue for colonel-level officers working in the area of civil engineering, a key area that supports aircraft operation, to gather for discussion and deepen mutual understanding, and to enhance civil-engineering capacity through collaboration.

At this engagement, participants deepened mutual understanding by sharing information on activities of each air force, and confirmed that they would continue collaboration, reaffirming that the area of civil engineering would play an important role in operation of air forces.

Koku-Jieitai will continue cooperation with air forces in the Indo-Pacific, to maintain and enhance trust in the area of civil engineering as well.
