

Participation in the conference (Space-related) at the DSEI Japan 2023

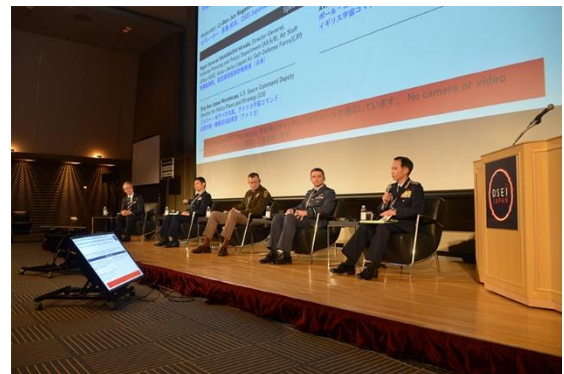

On March 15, Major General SAKANASHI Hiroaki, Director General, Defense Planning and Policy Department, Air Staff Office, JASDF(Japan Air Self-Defense Force), participated in the conference (Theme : Security and International Cooperation in Outer Space) at the DSEI Japan 2023 with Brigadier General Jesse Morehouse, Deputy Director of Policy, Plans and Strategy, US Space Command, and Air Vice Marshall Godfrey, Commander, UK Space Command. General IZUTSU Shunji, Chief of Staff, JASDF observed the conference.

At this conference, Major General SAKANASHI presented JASDF's efforts related to space security, including the evolution to the Japan Air and Space Self-Defense Force, and confirmed with participants from the United States and the United Kingdom the need for cooperation and collaboration with allies and like-minded countries in the space domain.

In addition, as a comment at the end of the conference, General IZUTSU emphasized that the importance of efforts in the space domain and the cooperative relationship among allies and like-minded countries, including Japan, the United States and the United Kingdom.
