

# Research Exchange between Center for Air & Space Power Strategic Studies - Japan and National University of Mongolia

On July 25, Center for Air & Space Power Strategic Studies - Japan, JASDF Command and Staff College had a VTC with National Defense University of Mongolia and Mongolian Air Force as a part of research exchange. Both participants deepened mutual understanding and trust through a discussion on security environment in the Indo-Pacific region and future research exchange. This exchange is realized following the official visit to Mongolia by Chief of Staff, JASDF in early July, while promoting defense cooperation and exchanges between the two air services.

Japan and Mongolia are like-minded countries which share the universal values such as freedom, democracy, the respect for basic human rights, and the rule of law. Koku-Jieitai will strengthen the bilateral security relationship through defense cooperation and exchanges in various fields.
