

## Participation in USSPACECOM's Global Sentinel 2024

From February 5 to 16, Koku-Jieitai (Japan Air Self-Defense Force) and 24 other countries participated in Global Sentinel's annual capstone event hosted by U.S. Space Command at Vandenberg Space Force Base.

In this exercise, we conducted training and opinion exchanges on Space Situational Awareness (SSA) to deepen our knowledge and mutually affirmed that we would continue to farther strengthen cooperation among the participating countries.

Koku-Jieitai will steadily build up the space capability for stable use of space.
