

European fighter jets' visit to Japan

From July 19 to 25, Koku-Jieitai (Japan Air Self-Defense Force) conducted trainings with German Air Force (GAF) and Spanish Air and Space Force in Chitose Air Base, as well as French Air and Space Force in Hyakuri Air Base.

In the Nippon Skies, as part of Pacific Skies, General UCHIKURA Hiroaki, Chief of Staff, JASDF, and Lieutenant General Ingo Gerhartz, Chief of GAF, flew together in their respective fighters, F15 and EF2000 Eurofighter.

Based on the recognition “The security of Euro-Atlantic and Indo-Pacific are inseparable,” we will continue to strengthen cooperation with other air services and contribute to regional peace and stability.
