

December 2021

Codification and Standardization Office

ATLA, Japan Ministry of Defense

Notification of NCAGE Creation/Updates in the Christmas and New Year holidays

If you would like to create/update NCAGE by the end of December, please request NCAGE creation/updates by December 9th, 2021. NSPA※, the agency in charge of NCAGE, will be closed from December 18th, 2021 to January 10th, 2022 due to the Christmas and New Year holidays. (If you request it after December 10th, 2021, your request will be processed after January 12th, 2022.)

Additionally, we ask you to avoid requesting NCAGE creation/updates from January 6th to 11th, 2021, because during that time, ATLA will conduct hardware replacement.

We recommend you that you request NCAGE creation/updates as soon as possible.

We appreciate your understanding.
