Ministry of Defense

Support for Ukraine through the IT Coalition

- 1 Regarding the “IT Coalition” supporting Ukraine, in which some willing nations such as European countries participated, Ministry of Defense (MOD) announces that, on December 3, we held an online workshop to share the MOD/Self-Defense Forces (SDF)'s knowledge related to cybersecurity. This initiative was organized in coordination with participating countries of the “IT Coalition” to provide educational support aimed at enhancing the cybersecurity capabilities of the Armed Forces of Ukraine.
- 2 We believe that this will enhance the Armed Forces of Ukraine’s IT-related capabilities and strengthen the relations with other European nations participating “IT coalition”.
