8 February 2023 Ground Staff Office

Bilateral Field Training Exercise "Dharma Guardian 22" with the Indian Army

The Japan Ground Self-Defense Force (JGSDF) conducts the bilateral field training exercise "Dharma Guardian 22" with the Indian Army outlined below to contribute to realizing a Free and Open Indo-Pacific:

1. OBJECTIVE

The JGSDF will improve its counterterrorism tactical skills by conducting field training exercises with the Indian Army and further strengthen cooperation between the Japan Self-Defense Force and the Indian Army.

2. PERIOD

February 17 (Fri) to March 2 (Thu), 2023

3. VENUE

Aibano Maneuver Area

4. MAIN TRAINING ITEMS

Counter-Terrorism Exercise (including command post exercise)

5. EXERCISE PARTICIPANTS

(1) JGSDF

A. Training Commander:

Lieutenant General Horii Taizo, Commanding General, Middle Army

B. Training Commanding Officer:

Colonel Mishima Kenji, Commander of the 36th Infantry Regiment

C. Participating Unit:

The 36th Infantry Regiment

(2) Indian Army

The 5th Infantry Battalion

6. SIGNIFICANCE

- (1) "Dharma Guardian 22" is the first field training exercise conducted with the Indian Army in Japan.
- (2) Training items are expanded by adding the various functions (adding a role as headquarters and enhancement of EOD units) to the participating units (rifle platoon) which have taken part in the Dharma Guardian since before.

7. COUNTERMEASURES AGAINST COVID-19 AND INFLUENZA

- (1) Those participating in the exercise must take appropriate measures against infectious diseases in accordance with the policies of the Japan Ministry of Defense/Japan Self-Defense Force.
- (2) If one is suspected of being infected with COVID-19 and/or INFLUENZA, he/she will be quarantined at a prepared facility and have them take PCR testing. In addition, we identify anyone who have been close contact with the patient and isolate them to prevent further spread of infection.
- (3) If the above personnel tests positive for COVID-19 and/or INFLUENZA, we will quarantine the patient based on instructions from the local health center, and if the condition of the patient becomes serious, we will immediately transfer the patient to an emergency hospital nearby.
